

UPPERVIOLET

DEODORIZATION AND STERILIZATION IN CARE HOMES

*"My home never smelled,
why should it now?"*

UPPERVIOLET

We can't ignore the problems any longer.

In care homes, pathogens are often lethal, while odors affect the well-being of the residents, staff and visitors.

These issues are often accepted and overlooked because dealing with them is very difficult.

Let's change that!

Attract and protect more residents and staff.

Safety, Comfort, Dignity

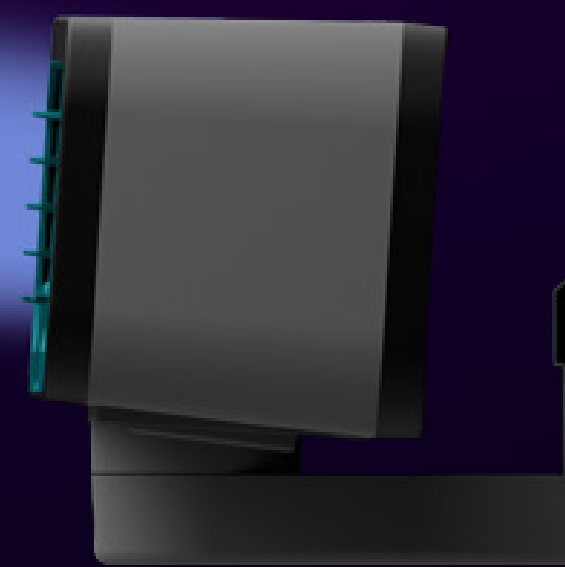

The UPPERVIOLET range is an efficient and cost-effective way of dealing with airborne pathogens and odors in care homes.

UPPERVIOLET

**Advanced UV tech for
pathogen destruction.**

**New Catalyst technology
with an unparalleled ability
to neutralise ammonia gas.**

On average, the ammonia reduction efficiency of the Ammonia Filter was up to **±29 times higher** than the tested activated carbon filter.

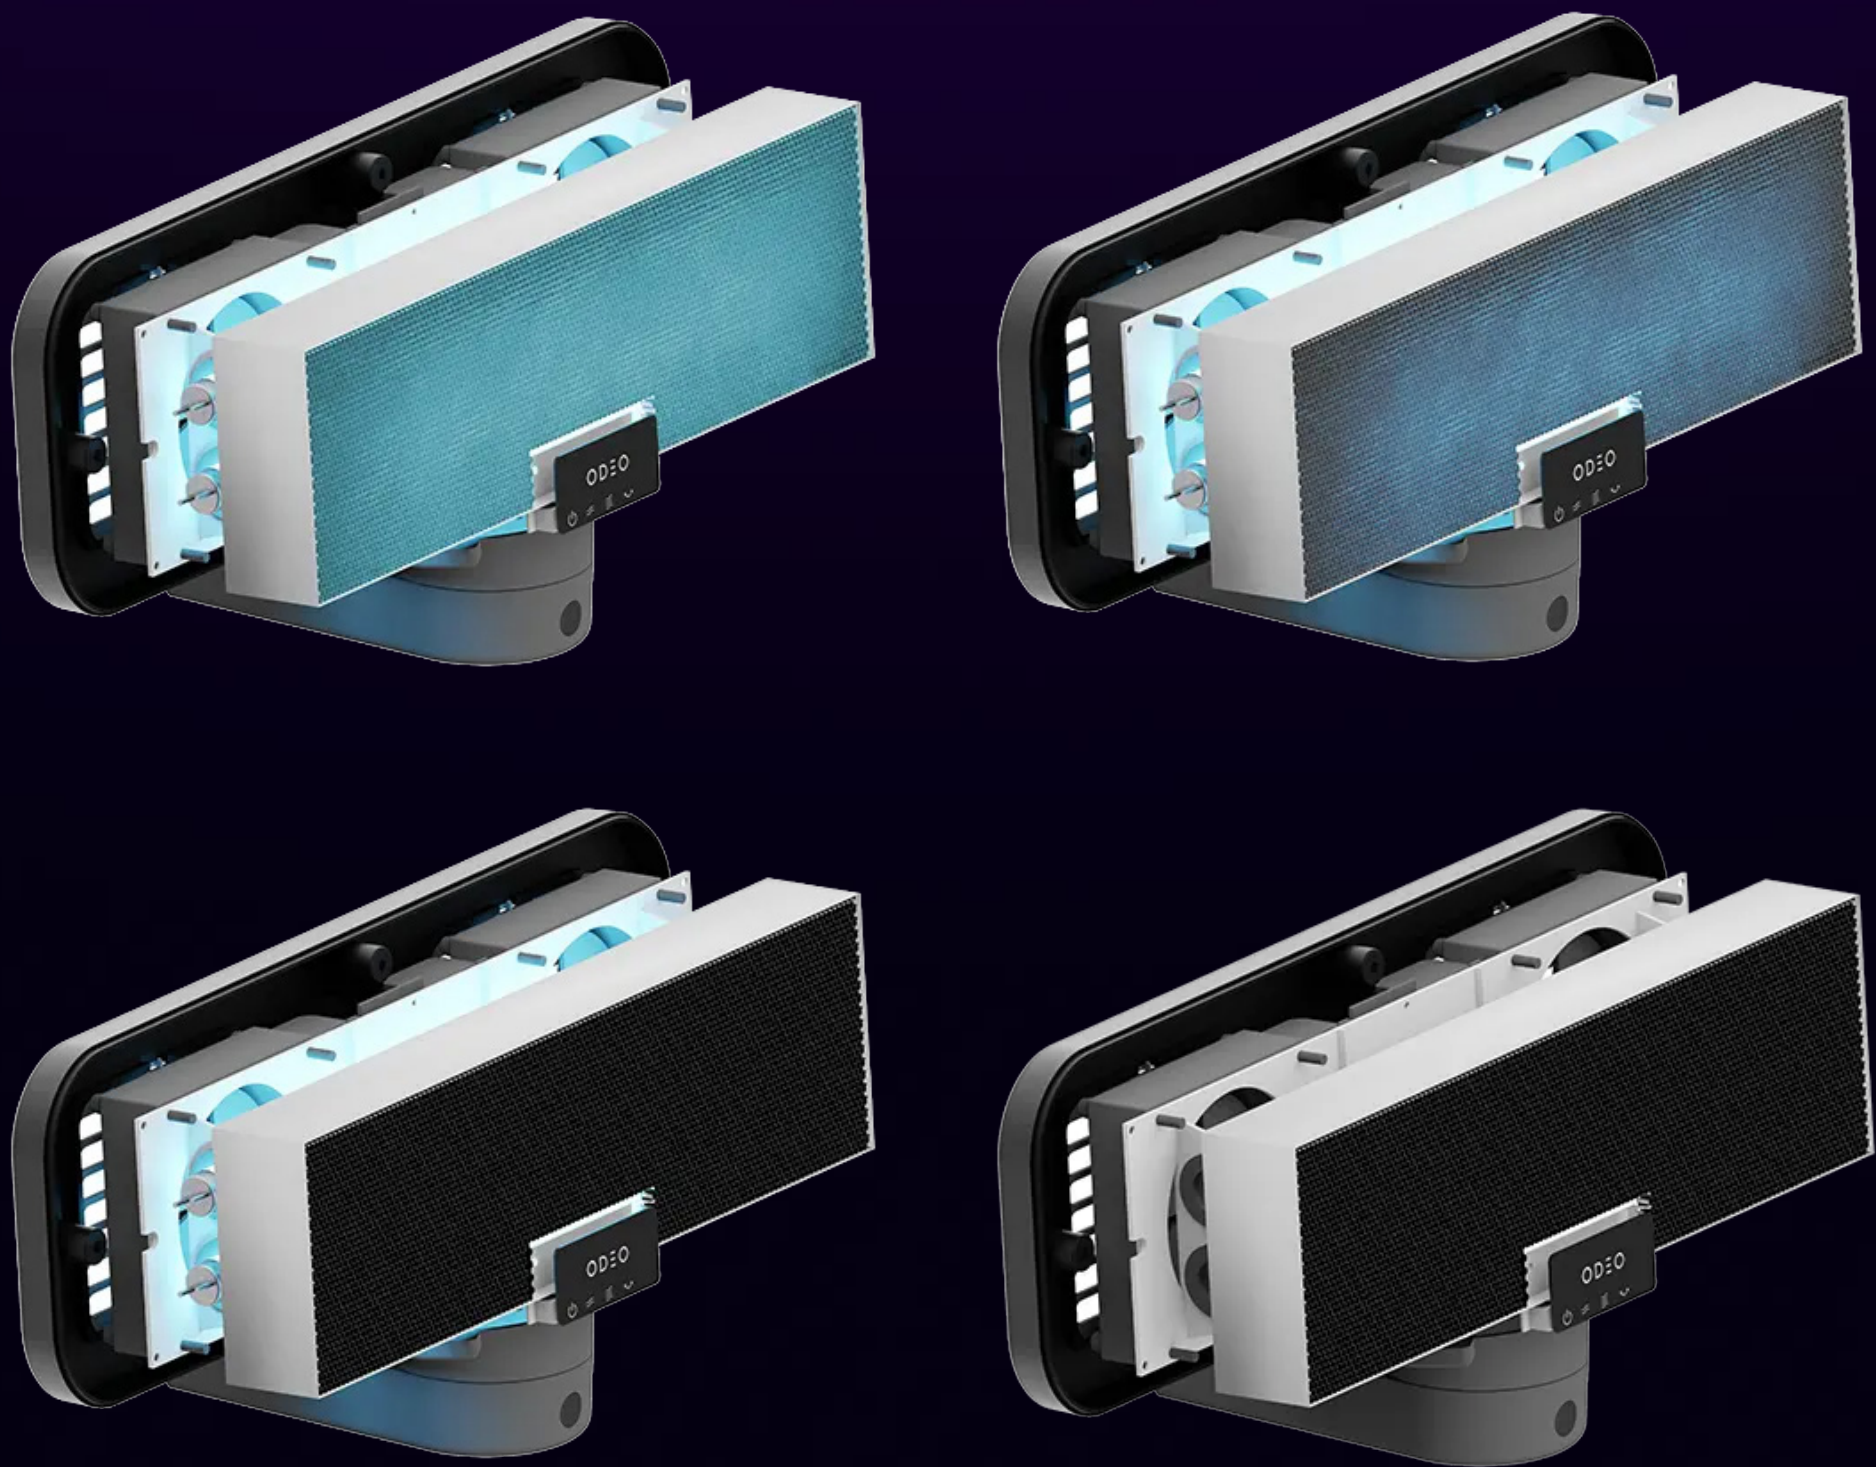

*The Danish Technological Institute
ISO 11155-2:2009*

*Ozone is a no zone!
We don't use it and don't need it.*

UPPERVIOLET

4 models to satisfy
all requirements

RRP \$245 to \$325
